

## Ram Mohan, Chief Strategy Officer, Identity Digital

A seasoned executive with a strong strategy orientation, Ram works closely with the CEO, board members, and executives to achieve Identity Digital's long-term vision. Ram served as COO and co-founder at Afilias, acquired by Donuts in 2020, where he launched the .info, .org and .io registries, building the world's second-largest domain name registry.

Ram's previous positions include Co-Founder of TurnTide (acquired by Symantec 2001) and COO of Infonautics (publicly traded Ed-Tech company). His board positions include Global Commission on the Stability of Cyberspace (GCSC) and ICANN (2008-2018). Ram also co-founded ICANN's Security and Stability Advisory Committee (SSAC).

He is an inventor of nineteen U.S. patents in Internet technology, recipient of InfoWorld's 'Premier 100 Technology Leaders' award, a CIO100 honoree, and Guinness World Record holder (2018).

Ram enjoys running (7 marathons and counting), playing with his two girls, and living with his wife in picturesque Bucks County, Pennsylvania.
